

UNITED STATES GOVERNMENT

Memorandum

TO : GR - Mr. Ashley Beatty

DATE: 3-26-68

FROM : INR/DDC/CS - Lawson A. Moyer, Jr. *LAM*

SUBJECT: Briefing Material for Foreign Service Inspectors

A request has been received from the Foreign Service Inspector General for briefing material related to the forthcoming inspection of the Foreign Service post(s) listed below. Experience has shown that this material is most useful to the Inspectors when it concentrates on major problems. Only in exceptional circumstances should the Inspectors be asked to collect information which can be obtained directly from the post through normal channels of communication or to verify the post's compliance with special instructions or requests which you originated.

Since the inspectors frequently visit posts long after their departure from Washington, the material should not be prepared on the assumption that the Inspectors will recall in intimate detail the information provided them in the course of any oral briefings.

It is necessary to submit the material promptly on or before the requested due date to give ample time for the inspectors to review the information and suggestions and, to allow time for the Staff to assemble the material and to meet the Pouch Schedule to the Post. The briefing material is held in confidence and is not made available to the post.

The material should be sent in three copies, original and two carbons to INR/DDC/CS/Miss Taylor, Room 6638, and should not be classified above CONFIDENTIAL, if possible. Material for each post should be on a separate page or pages so that it can easily be detached from that pertaining to other posts in the same country. Please refer questions to ext. 3121.

Your cooperation is appreciated.

~~CONFIDENTIAL~~

PORTUGAL, Oporto

The post has no designated Graphics Coordinator at this time. During the past year, activity in the Graphics Program has been limited. In view of recent interest expressed by the post, it is hoped that more activity will be seen in the future. Although the Embassy at Lisbon has been used for filling current needs, there is a continuing need for photographs of newly prominent personalities and new construction in industry, transportation, and telecommunications in the Oporto area.

CONFIDENTIAL

AZORES, Ponta Delgada

The Graphics Coordinator has been designated for Ponta Delgada since 1964. This post has been inactive in the Graphics Program for some time, a recently received group of photographs were of value in updating the photographic holdings. It is hoped that this post will continue such submissions as the opportunity arises in the future. Present photographic coverage of the Azores is outdated; therefore, photographs of new construction, ports, local industry, and personalities are needed.

18 MAR 1968

ZAMBIA, Lusaka

No Graphics Coordinator has been designated at this post. Responses to specific requests have been timely and pertinent. In view of restrictions relative to the procurement of photographs in the area, the development of a more active Graphics Program is left to the discretion of the post. If collection guidance or supplies are desired they will be provided upon request.

CONFIDENTIAL

SWITZERLAND, Bern and Zurich

Neither Bern nor Zurich have designated Graphics Coordinators. Although we have placed no photographic requirements on either post during the past year, we believe that both could be of considerable assistance in providing needed photographs of foreign personalities. Photographs of delegates to international conferences are needed and, we understand, can be purchased. Graphics Coordinators in Swiss posts could provide this service. We request that they be designated.

18 MAR 1968

CHAD, Fort Lamy

The current Graphics Coordinator was designated in August 1967. During the past year the Graphics Program has been active providing excellent Socio-Economic photography, all contributions have been timely and well-identified. No problems are anticipated with the Graphics Program at Fort Lamy in the forthcoming year. In view of the continuing activity in the Graphics Program no additional guidance appears necessary.

CONFIDENTIAL

SPAIN, Barcelona, Bilbao,
Madrid, Seville, Valencia

No Graphics Coordinators have been designated at these posts. There has been no activity in the Graphics Program in the past year. Since there has been very little collection activity in Spain in recent years, many of the current photo holdings should be up-dated. If any of these posts desire to activate a Graphics Program, the necessary supplies and collection guidance will be supplied upon request.

ADEN, Arabia

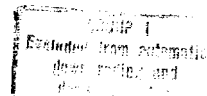

This post designated a Graphics Coordinator in March 1967. The Graphics Program has been active at this post in the past year, responses to specific requests have been timely and appropriate. No problems are anticipated in the Graphics Program in the future. In view of the existing restrictions on Photo taking in the area, no additional guidance will be provided unless specifically requested by the post.
